

Agenda Item 8. Committee Correspondence regarding Dover District Planning Application outside of Parish Boundary Dover District Council reference number: 24/00348

Email from a resident of Nonington regarding Dover District Council Planning Application reference number 24/00348:

Outline: Change of use of land to a camp site for 6 tent pitches, car park, drainage and septic tank

Location: Transmitter Mast Land North of Beauchamps, Beauchamps Lane, Nonington CT15 4LN

Resident is wishing to seek as much opposition as possible and has invited Aylesham Parish Council to meet with them to have a look at the site and highlighted within their email that the location is possibly the most peaceful part of Nonington; the six tents are 50sq m in size and sleep six people, which will make the little oasis significantly more noisy.
